Study your handout on 11 reasons to use teacher questions during problem solving, with example questions for each reason. Divide into groups of three and teach each other the material. You may have 8 minutes to study, then take the short quiz on the material. Hint: You may be given a specific question and asked for the purpose of the question, or you may be asked to give example questions for a specified purpose. Your group may work on the test together—after all handouts are put away, of course!

Describe below your method or methods for learning this material. (Complete this before you take the test.)

(Complete this after the test.) What, if any, changes would you make in your study plan?
Answer the following questions. If you wish to hand in one paper per group, be sure that everyone who participates signs the bottom of the paper.

1. The purpose of a question like “How would you be able to use this in other situations?” is to

2. The purpose of a question like “What strategy did you use?” is to

3. Give an example of a question you would ask to provoke student interaction.

4. Give an example of a question you would ask to challenge student reasoning.
